

Dave Komendat

Vice President and Chief Security Officer,
Shared Services Group
The Boeing Company
Chicago, Illinois

Dave Komendat is the vice president and Chief Security Officer (CSO) for The Boeing Company. In this role, he leads the Security & Fire Protection (S&FP) organization comprised of more than 2,000 people, including contracted personnel, to provide risk management services and standards to protect people, property, and information across the enterprise. He is responsible for functional guidance and governance oversight for Boeing's global security and fire protection policy and procedures, site security, supply chain security, structural and aircraft fire protection, government and proprietary information security, data protection and security background investigations. Additionally, his organization is responsible for incorporating business continuity principles in critical areas throughout the enterprise as well as leading and overseeing emergency and disaster preparedness, international security, crisis management, counterintelligence and counterterrorism, insider threat programs, threatmanagement, security technical operations and executive protection.

As CSO, he is the Boeing interface for both national and international security policy engagement with government and industry advisory groups to include the Department of Homeland Security's (DHS) Critical Infrastructure Partnership Advisory Council; Overseas Security Advisory Council and the National Counterintelligence Working Group. Dave is the past Chairman of the Department of Homeland Security's Critical Manufacturing Leadership Council and currently represents Boeing as the private sector Co-Chairman on the Domestic Security Alliance Council (DSAC), a partnership comprised of the FBI, DHS and members of the private sector formed to enhance communication and promote the timely and effective exchange of information focused on keeping the nation's critical infrastructure safe, secure, and resilient. Dave also holds board leadership roles within The International Security Management Association and the International Security Foundation.

Dave has held a variety of leadership positions at Boeing and McDonnell-Douglas. He held a succession of leadership roles including Security Operations manager for the C-17 Program and Site Security manager positions for U.S. Sea Launch in Long Beach, Calif., and Boeing sites in the Seattle area following the Boeing McDonnell-Douglas merger in 1997. In 2001, he became the director of Security for the new Boeing World Headquarters in Chicago. He was named director of overall Security Integration in 2005 while also assuming the role of acting vice president of SSG Operations where he had

enterprise responsibility for Security & Fire Protection, Employee Health and Safety, Frequency Management and Business Continuity. Komendat was appointed Boeing's Chief Security Officer in 2008.

Komendat graduated from California State University at Long Beach with a bachelor's degree in criminal justice specializing in industrial security. He joined McDonnell-Douglas as an Industrial Security Specialist in 1986. Komendat also is a graduate of the executive development program at the Kellogg School of Management, Northwestern University in May 2005.
